

FILL™

FILL™

By popular demand, O3World introduces the new FILL™ bar. Imagine getting the expanding, satiety technology, fibrous ingredients blended into an organic and/or clean delicious whole-food bar. Now you can eat a FILL bar with a tall glass of water and not only feel full, but get the weight management benefits that come from eating right and staying hydrated.

We manufacture FILL bars fresh, daily on site and sell them fresh daily to you in a “take anywhere”, convenient presentation. To keep things even fresher, enjoy new flavors each month. Perfect for late night or between-meal cravings.

Feel full... eat well... be slim... be healthy.

We recommend that you add FILL bars to your daily routine along with FIXX™ and FORM™. As you feel the benefits of FORM and FIXX you may need a little help ensuring that you get all the fruits and whole-grains that your body needs. FILL bars will help you get added nutrition you may need as you cut your calories. Not only are FILL bars great for between meal or late night cravings with the benefits of satiety technology, you might actually skip that next meal.

Share FILL bars while you're demonstrating FORM™. Everyone at your party will love the flavors, nuts, 24 Karat Chocolate® and real all-natural fruits of the made fresh daily FILL bars. You will be the hit of the party. Healthy, wealthy, and wise! FILL: The next generation of weight management.

To ensure that you receive the freshest bars we make them fresh daily, and highlight a different flavor each month. Each bar is infused with our proprietary and exclusive Aqueous Molecular Partitioning processing, which use whole fruits and natural ingredients not harmful solvents or chemicals.

Here is a list of some of the flavors you will enjoy throughout the year:

Apple/White Dragon, Cherry/Lime, Orange/Rainmaker, Blueberry/Mint, Raspberry/Lemon, Pomegranate/Red Dragon, Strawberry/Pineapple, Apple/Cranberry, Pumpkin Spice, Chocolate Chunk, Chocolate Chunk/Mint and Chocolate Chunk/Orange.
